

*and aquatic complex*  
**DONATION FORM**

Dear Supporter,

The Redwood Coast Recreation Center & Complex is a project to develop and build a proposed indoor Pool facility in Gualala. RCRC currently owns eleven acres, donated by the late John Bower, Sr. Adjacent to Bower Park in Gualala. The addition of the RCRC & Aquatics Complex next to Bower Park would provide our coastal community with 22 acres of recreational area for health, fitness, and well being for all ages.

This is an ambitious project for a community of our size. However, one only has to look at the success our community has had in developing RCMS, building the Gualala Arts Center & the Coast Community Library, re-building the Arena Cinema, and now re-vitalizing the Point Arena Lighthouse to know that our community dreams big and then makes big dreams happen!

Thank you for taking a moment to fill out this donation slip and include it with your generous gift that will help RCRC bring a swimming pool to our coastal community!
